

Community Health Practice Experience

Practice Experience Final Report (Poster)

This report should be formatted as a PowerPoint poster. A sample final report is attached or can be found at <http://publichealth.slu.edu/OSD/PracticeExperienceNewForms.htm>.

The following should be included in your final report:

- a. Your name and the name of the organization at which you did your practice experience.
- b. Dates of your practice experience.
- c. Description of the practice experience to include:
 - i. Description of organization: type or organization (e.g., community health center, social service agency) purpose (e.g., provides primary health and prevention services to low income residents, connects low income residents to housing, health care services, etc.)
 - ii. Description of the practice experience: your role in organization, project(s) on which you worked, other related activities, e.g., meetings, retreats, planning events, etc.
- d. Public Health Context: real or potential impact of the work you accomplished on the public's health using the core functions (assessment, policy development and assurance) as a guide.
- e. Guided Progress Reports. Provide a summary of the reflections that you recorded on the guided reports. Describe at least one challenge that occurred during the internship and the ways in which you overcame that challenge.
- f. Competencies gained/improved through practice experience. Describe at least three competencies that you were able to improve and the ways in which they were approved, e.g., experiences or activities that allowed you to gain competence in those areas.

If you need further guidance on completing your poster, please speak with the Practice Experience Coordinator or your Practice Experience Advisor.
